## Champion birth equity with a new guideline and toolkit

Every mother deserves the best possible opportunity to not only survive but thrive before, during and after childbirth.

That's why Huggies® has partnered with the nurses of AWHONN on the recently launched "Respectful Maternity Care Framework and Evidence-Based Clinical Practice Guideline" and related toolkit to foster maternal nursing care rooted in dignity and respect and free from discrimination, including racism.

It's a serious issue that affects many families. According to the CDC\*, Black moms die post-birth at 3-4 times the rate of white moms.

Contact your AWHONN chapter to learn how you can become a champion for change in your organization. Then see AWHONN's past president, Rose Horton, demonstrate delivering respectful maternity care.

## New look!

Our packaging for Huggies® Little Snugglers® diapers and Natural Care® Sensitive Wipes is getting a makeover this spring, and we can't wait for you to see our new look!

And while the outside may look different, the inside of the package is the same—our perfect diaper for gentle skin protection and the ideal wipe for newborn skin.
